**RESPONSE TO ELECTION OF SPECIES REQUIREMENT**

Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

This paper is in response to the Election of Species Requirement mailed on October 3, 2002. In the Election of Species Requirement, it required an election of the species shown in FIGS. 2A-2B (Species I), the species shown in FIG. 3 (Species II) and the species shown in FIGS. 4 and 5 (Species III). Applicants elect with traverse Species

III corresponding to FIGS. 4 and 5. Species III corresponds to claims 1-4, 8-11, 15-18 and 22-28, where claims 1, 4, 8, 15 and 22-25 are generic to Species I and III. Applicants reserve the right to file one or more divisional applications in order to prosecute the species shown in FIGS. 2A-2B and 3. Applicants traverse the election of species in that there would be significant overlap for the search for the inventions of all the species and so there would be no hardship for each species to be searched and examined simultaneously. Accordingly, the election of species should be withdrawn and each species should be searched and examined.

Respectfully submitted,

---
